## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Nishide (5,979,400).

Nishide teaches a start-up fuel control system for an internal combustion engine comprising a controller setting an allowable crank angle range that allows the fuel injection within the predetermined period of time subsequent to an initial combustion of the injected fuel upon the start-up of the internal combustion engine.
